

BPS VISION

EXPLORING YOUR IMPACT IN BPS

The BPS has a vision for young people and communities:

For young people: “To strengthen young people’s agency and navigational capacity to improve their sense of belonging and enhance their lives”

For the Community of Practice: “To create a sense of togetherness to work together to create better connections and a better support system for young people.”

The BPS mission:

To co-create a collaborative partnership - made up of service providers, young people and the site team - that listens deeply, implements the evidence-based approach and learns collaboratively

OUR COMMITMENT

- We need to understand young people’s past and present to understand their individual challenges
- We need to give young people agency to identify their own future goals, not force ideas onto them - and connect them with the information & services they need to get there
- We help young people to learn from mistakes and grow, and encourage them to not give up

MY VALUES

ALIGNING YOUR VALUES TO THE BPS MISSION AND VISION

ALIGNING VALUES

Reflect on the BPS vision and mission. How do these align to your own values and assets?

YOUR IMPACT

What are you committing to in representation of this vision and also who you are?
