

GROWTH AND PROGRESS

Mission: You are a young leader on a mission to understand the impact of economic growth on our planet. Embark on a journey through time to explore the advancements and challenges brought about by progress, considering the cost of growth and exploring pathways towards sustainable development

STEP 1: ANCIENT HARMONY (IMAGINE A VILLAGE IN HARMONY WITH NATURE)

How did people in this era live in balance with their environment?

What challenges did they face in meeting their needs?

STEP 2: THE INDUSTRIAL BOOM (IMAGINE A BUSTLING FACTORY WITH SMOKE STACKS)

What inventions revolutionized this era?

How did these advancements lead to economic growth?

What were the environmental consequences of this rapid growth?

STEP 3: THE CROSSROADS OF CHANGE (IMAGINE A CITY WITH BOTH INNOVATION AND ENVIRONMENTAL CHALLENGES)

What advancements are helping us address environmental concerns today?

How can we achieve economic growth while protecting our planet?

What are the challenges of balancing economic development with environmental sustainability?

REFLECTION

Based on your journey, what costs on our planet and lives we need to consider when pursuing growth?

Imagine you are a ecopreneur leader. What steps can you take in your own community to promote sustainable development?

What can we learn from the past to create a more sustainable future?

BONUS CHALLENGE

Research a leader, past or present, who advocates for sustainable development. Share their story and ideas for creating a future where humans and the planet can thrive together.

Remember: We are all on this journey together. By understanding the past, present, and future of growth, we can become responsible leaders for a sustainable tomorrow.
